

Active Learning tools and strategies

April 28, 2016
11 a.m. – 12:30 p.m.

Higher education in the health sciences is evolving to best prepare students to meet society's health care needs.

Active learning instructional strategies have been embraced by educators for over 25 years. But, with the rapidly escalating volume of health science knowledge necessary to function as health care providers, it has never been more important for teachers to consider the learning outcomes desired by these targeted efforts.

Key Presenters

Stephanie Burge MSN, RN, APRN-NP

Instructor
College of Nursing- Kearney Division
University of Nebraska Medical Center

Martonia Gaskill, PhD

Assistant Professor
Department of Teacher Education
University of Nebraska Kearney

Dawn Mollenkopf, PhD

Associate Professor
Department of Teacher Education
University of Nebraska at Kearney

Ryan Splittgerber, PhD

Assistant Professor
Director, HSEC Gross Anatomy Laboratory
College of Allied Health Professions
University of Nebraska Medical Center

Modern educators must employ a learning plan that efficiently and effectively supports understanding and retention. This session will focus on active learning tools and strategies that will best prepare the next generation of health care providers.

At the conclusion of this session, you'll be better able to:

- Assess tools and strategies that can be used to promote active learning
- Evaluate student perspectives of hands-on learning activities
- Adapt learning activities that are unrestricted to traditional classroom space

The **session takes place in rooms on every campus**. It will be coming to you live from Kearney, but streaming to select rooms on every campus — simply select your preferred venue when you register.

Register at unmc.edu/facdev or **402-559-5929** to reserve your spot today. If you have questions, please contact Linda M. Love, EdD, at lmlove@unmc.edu.

Credit
