Good Afternoon All,

I hope your week has gotten off to a good start and that you are enjoying the wonderful weather!

First off, I applaud the Climate Survey Project Charter Team for the excellent work that has been completed in preparation for Phase I of the System D&I climate survey. Dr. Gaskill, your leadership, laser focus, and attention to detail throughout the process is greatly appreciated.

In the spirit of transparency, I am sharing an update with you about the UN System Climate Survey. President Carter has heard concerns regarding the timing of the survey release. I will be meeting with him Monday to discuss a revised timeline that he has proposed and will provide the Project Charter Team (Climate Survey) and D.O.C. with an update. This will in no way dismantle the excellent work that has been completed for Phase I of the survey - the topical areas for the first phase have been identified and will be shared with the researcher soon. It is my hope that this adjusted timeline between the launch of Phase I and Phase II will increase the quality of the final instrument for Phase II/the full survey – one that speaks to the specific areas of interest to the University of Nebraska.

I will follow up with everyone Monday. Thank you for your on-going support.

Best Regards,

Stancia
